A TRUE NOVEL
by MINAE MIZUMURA

A stunning English debut and winner of the Yomiuri Literature Prize

“A passionate reimagining of the romantic classic Wuthering Heights by Emily Brontë.”
—La Nación (Argentina)

“This is a book for readers who yearn for the juice and substance of nineteenth-century novels, for the drugged wonder of immersion in another world, in other souls... A True Novel not only satisfies that yearning but is a commentary on the phenomenon—and, further, a cool accounting of a traditional society’s material gains and cultural losses in the transformations of the last century. Of contemporary writers, only the likes of Ian McEwan or Jane Smiley have achieved this combination of scope and emotional power.”
—Anna Shapiro, author of Living on Air

“A work of literature not to be missed.” —Three Percent

“Mizumura meets her literary challenge with impressive sophistication and irresistible emotional power.”
